

BILBERRY BLACK HEARTS™ GIN

100% organic Michigan wheat combines with juniper, bilberry, and more traditional gin botanicals to produce a unique, American-style gin. Bilberry takes the stage alongside more traditional gin botanicals such as Juniper and Coriander. Our Bilberry Black Hearts Gin is aptly named for the delicate, dark-in-color bilberry fruit—a cousin to the huckleberry and blueberry. The title “Black Heart” comes from the nickname given to bilberry in 19th century England.
