

# JOURNEYMAN Distillery™

ETHYL IS THE NAME OF OUR SHINY COPPER STILL. A STILL IS THE MACHINE THAT HELPS US CREATE OUR JOURNEYMAN SPIRITS. WE USE GRAINS LIKE CORN, WHEAT AND RYE TO MAKE ALCOHOL THROUGH A PROCESS CALLED FERMENTATION. AFTER THE ALCOHOL IS MADE IN THE STILL, IT IS STORED IN OAK BARRELS FOR AGING AND LATER BOTTLING.

root beer / cola / diet cola / lemon-lime / fruit punch

ICED TEA — 4

BARRITT'S GINGER BEER — 3

FEVER TREE GINGER ALE — 5

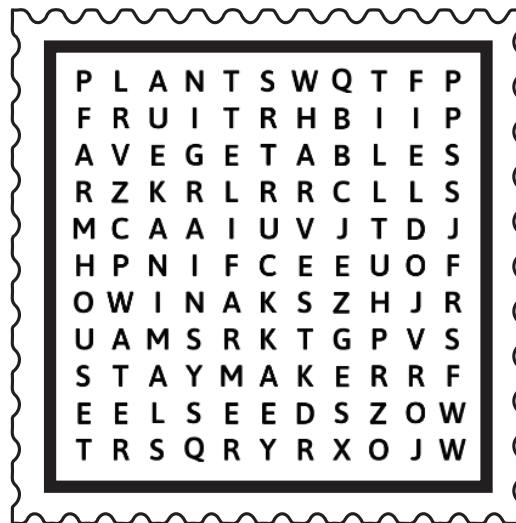

LEMONADE — 5

FROM CORSETS AND BUGGY WHIPS  
TO WHISKEY, SPIRITS AND GREAT FOOD...

JOURNEYMAN DISTILLERY IS LOCATED IN THE HISTORIC FEATHERBONE FACTORY BUILT BY EK WARREN IN 1883. THE FACTORY WAS ORIGINALLY USED TO MAKE BUGGY WHIPS AND CORSETS DURING THE END OF THE 19th CENTURY. EK WARREN REVOLUTIONIZED THE MANUFACTURING OF CORSETS WITH THE USE OF TURKEY FEATHERBONES, RATHER THAN THE STIFFER WHALEBONE COMMONLY USED FOR CORSETS AT THE TIME. EK WARREN'S SUCCESS REACHED WORLDWIDE ATTENTION, PUTTING THREE OAKS ON THE MAP! WE HAVE RESTORED THE FACTORY AND KEPT MANY OF THE ORIGINAL FEATURES TO PRESERVE THE UNIQUE HISTORY OF OUR BUILDING.
